BEYOND OLYMPIC SPEED

Experience a **20% performance surge** over the standard Vapor. Engineered for those who demand the ultimate underwater experience, the Vapor Pro redefines speed with a peak velocity of **12 km/h (7.46 mph)**.

*"Outswim the Gold." Move **1.5x faster** than an Olympic freestyle champion. With **249 N** of raw thrust, you're not just swimming—you're flying through the deep.*

HEAVYWEIGHT POWER LIGHTWEIGHT FRAME

We've achieved the impossible: professional-grade performance in a compact **8.7 kg (19.2 lbs)** body. Engineered for effortless handling, its ultra-compact frame allows you to carry it with one hand and store it anywhere — from small deck lockers to swim platforms.

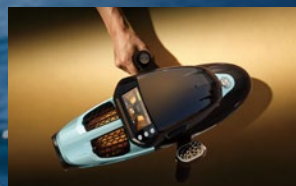

"Lighter than a standard carry-on." Effortless to transport from the yacht to the deep sea. Experience elite power without the bulk.

ZERO DOWNTIME UNLIMITED ADVENTURE

Designed for non-stop yachting adventures, the Vapor Pro comes standard with **two high-capacity batteries**. Our tool-free, **Quick-Swap system** allows you to exchange power in seconds, ensuring your equipment is always ready for the next guest with zero waiting.

"Ready before you are." With a 1.5-hour Rapid Charge and our dual-battery kit, your underwater operation never stays on the shore. While one is in the deep, the other is at the outlet, keeping the fun continuous.

Ready Before You Are

1.5H Rapid Charge for minimal downtime.

Uninterrupted Missions

Standard Dual-Battery kit for seamless rotation.

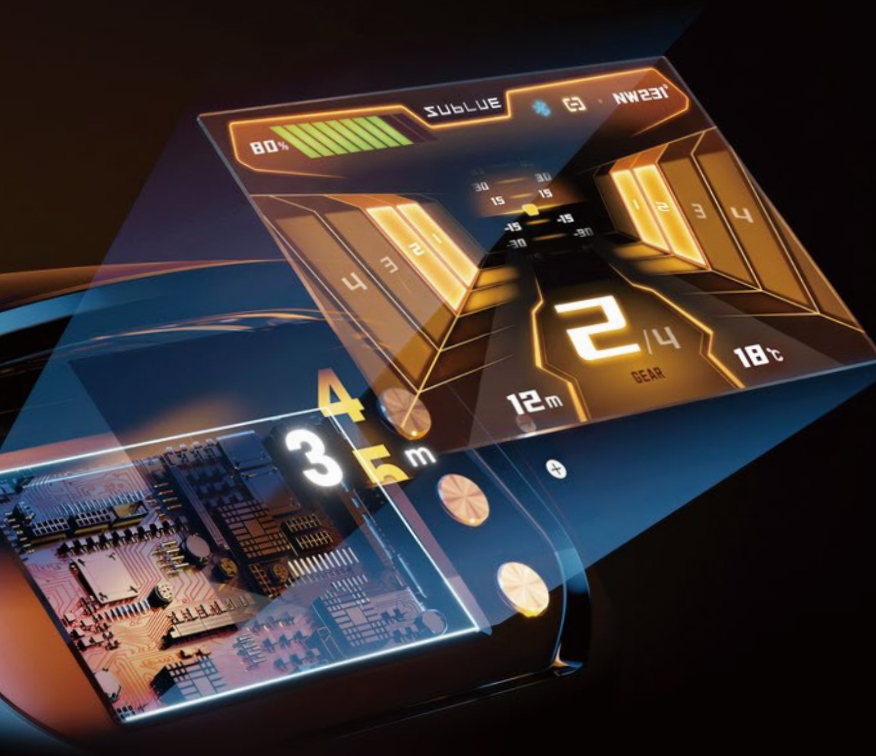

Seconds to Power Up

Tool-free, instant battery exchange.

COMMAND THE DEEP WITH TOTAL CONTROL

Experience the next level of underwater intelligence with our high-contrast dashboard. From real-time telemetry to customizable safety boundaries, every mission parameter is at your fingertips, ensuring a professional, safe, and personalized adventure every time.

4.3

4.3" High-contrast LCD dashboard

Real-time speed, depth & battery at a glance

Physical button presets

Set max depth, ascent rate & low-battery alerts on-device

Custom safety boundaries

Define depth limits & haptic alarms via the Subblue App

One-touch self-cleaning

App-controlled flush prevents salt corrosion

Multi-layer security

5th-gen BMS, waterproofing & integrated propeller guards

Positive buoyancy

Integrated chamber keeps it afloat if released

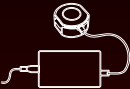

Rated to 40m (131ft)

Includes professional-grade safety lanyard
